

Dear Academy Charter Kindergarten Applicants,

Thank you for your interest in Academy Charter School!

In addition to our outstanding Kindergarten Program you have made application to, we want you to be aware of an additional offering that is available through Academy Charter School in the event that your child is not admitted through our lottery system.

Our Support Program for Homeschool Families offers Kindergarten classes two days a week, a total of six hours per week. We currently have 122 students in the K-8 support program. Although we focus on Science and Spanish as our core subjects, we incorporate reading, writing, and foundational teaching strategies in the Kindergarten classroom.

After attending the Homeschool Program your child would then receive priority (after siblings of current ACS Students) in the lottery for the coming year.

In the event that your kindergartener is not selected by lottery this year, we will send you a more detailed description of what the Homeschool Program offers or you may explore this option at Academy Charter's website under the Homeschool tab.

Supporting you in your child's educational endeavor,

Kim Adiar
